

A photograph of a modern lounge interior. The room features a light-colored tiled floor with a pattern of green and white squares. In the center is a dark wood coffee table. To the left is a green sofa with yellow and red cushions, flanked by two green armchairs with dark wood frames. Two side tables with lamps are positioned near the windows. The walls are white, and there are two windows with green curtains. A clock and a framed picture are on the wall.

HUDSON FORGE LOUNGE

An exciting new concept in style and durability, **Hudson Forge Lounge** is constructed of recycled USA steel frames that are fully welded at every joint. The seat cushion can be turned over for extended life and are easily replaceable. The line was developed to be maintenance free and bug resistant. It can even be powerwashed or steam treated!
