

WHICH WELLNESS SCREEN  
IS RIGHT FOR YOU?

TEMPORARY  
OR  
PERMANENT

## TEMPORARY

### EDGE MOUNT

- For use on existing worksurface or transaction top
  - How deep is the overhang of your worksurface?
  - Edge mount can only be applied to a surface with an accessible top and bottom surface
  - Must be a minimum of 2 1/2"D
    - If yes, please continue to worksurface thickness below.
    - If no, please consider the Freestanding Mount for another temporary solution.
- What is the thickness of your worksurface?
  - 1-1 1/8" or 1 1/2"?
  - Shims or washers may be used to fill the gap if applied to smaller surfaces
- What material is your worksurface?
  - Laminate, wood, stone, etc.
- Available lengths are:
  - 23", 29", 36 & 48" (All standard height of 36"H)

### FREESTANDING

- Freestanding board mounted screen
- Is your worksurface a minimum of 12" deep?
  - The laminate platform supporting the screen is 12"D.
  - If yes, please continue to sizing options
  - If no, please consider a more permanent mounting solution
- Available lengths are:
  - 23", 29", 36 & 48" (All standard height of 36"H)
- Please choose laminate finish for the screen platform
  - See last page of specification sheet

## PERMANENT

### SURFACE MOUNT

- Screw down plate kit is attached to top-side of worksurface
  - \*NOTE: Drilling required. Screws required to mount post plates to existing surface are not included.
- What is the thickness of your worksurface?
  - This will determine the length of screw required.
- What material your worksurface?
  - Laminate, wood, stone, etc.
- This will determine the type of screw required
  - Available lengths are:
    - 23", 29", 36 & 48" (All standard height of 36"H)

### UNDERMOUNT

- Mounts through holes drilled through existing worksurface and counter tops.
  - \*NOTE: Drilling required. Screws required to mount post plates to existing surface are not included.
- What is the thickness of your worksurface?
  - This will determine the length of screw required.
- What material is your worksurface?
  - Laminate, wood, stone, etc.
- This will determine the type of screw required
  - Available lengths are:
    - 23", 29", 36 & 48" (All standard height of 36"H)

# ALTERNATIVE OPTIONS

## DIVIDE PANELS

An alternative option to Wellness Screens is the use of Divide panels.

Divide is a modular desk-mounted panel system that can be added to new and existing worksurfaces. The panels can be vertically stacked and are available as laminate panels, fabric tackboards (not recommended as a Wellness Solution) and glazed panels. With several size and finish option, Divide is easy to specify.

- Individual work areas can be created to be semi-private using glazed panels or visually private using laminate and fabric panels.
- The use of Divide panels can provide visual privacy within the office environment, reduce sound levels and define work areas.
- Panels are available in 12", 18", 24", and 36" heights
- Panels can be stacked to produce heights of 12", 18", 24", 30" and 42".
- Available as fabric, glazed or laminate partitioning panels in various finishes and colors
  - Fabric panels are not recommended if being used as a Wellness Solution.

# WELLNESS SPECIFICATIONS

## WELLNESS SCREENS

As everyone contemplates how to move forward in their work environments, we are aware that the safety and health of your team and those you serve is top priority. To assist in these efforts, we are offering **Wellness Screens** as a solution to promote a healthy work environment.

Commonly known as sneeze guards, these clear acrylic screens are offered in several mounting options to act as temporary or permanent fixtures. Most importantly, they can be wiped down and easily cleaned.
