INDOOR/OUTDOOR SPECIFICATIONS:

CONSTRUCTION NOTES:

- Poly frame chairs can be easily cleaned and wiped down
- 450 lb. weight capacity on all chairs
- UV-treated for optimal color fastness
- Resistant to all weather and saline environments
- Recyclable

Nassau, Freeport and Bimini Chairs:

- Perfect for indoor or outdoor use
- Single-body poly frame allows products to be easily cleaned and wiped down
- Lightweight, durable, non-toxic and anti-static
- Resistant to all weather and saline environments
- Uniformly colored with UV additives for optimal color fastness
- Matt finish
- Stackable
- Non-slip feet
- Weight capacity of 450 lbs.
- Recyclable

Nassau Chairs:

- Solid seat and back

Freeport Chairs:

- Radial pattern of square perforations decorate the whole surface of the seat
- Perforations help with airflow on hot days and rainwater management.

Bimini Chairs:

- A seamless tubular frame gives this chair a rounded profile
- Perforations in seat and back help with airflow on hot days and rainwater management.

Abaco Extension Table

- Extendable table from 82" – 110" long
- Extensions system allows the structure to slide, always keeping the legs at the end of the table.
- This avoids any inconvenience due to obstructing supports
- UV-treated, uniformly colored poly slatted tabletop
- Coated aluminum legs with adjustable height feet
- Matt finish
- Can be easily cleaned and wiped down
- Recyclable

Bain Table

- UV-treated, uniformly colored poly slatted tabletop
- Coated aluminum legs with adjustable height feet
- Stackable
- Matt finish
- Can be easily cleaned and wiped down

Nevis Table

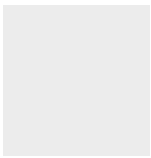

- Coated aluminum table with adjustable height feet
- Solid core, high pressure laminate tabletop
- Can be easily cleaned and wiped down
