# INDOOR/OUTDOOR SPECIFICATIONS:

## CONSTRUCTION NOTES:

- Poly frame chairs can be easily cleaned and wiped down.
- 450lb weight capacity on all chairs.
- UV-treated for optimal color fastness
- Resistant to all weather and saline environments
- Recyclable

## NASSAU, FREEPORT AND BIMINI CHAIRS:

- Perfect for indoor or outdoor use
- Single-body poly frame allows for products to be easily cleaned and wiped down
- Lightweight, durable, non-toxic and anti-static
- Resistant to all weather and saline environments
- Uniformly colored with UV additives for optimal color fastness
- Matte finish
- Stackable
- Non-slip feet
- Weight capacity of 450lbs
- Recyclable

## NASSAU CHAIR

- Solid seat and back

## FREEPORT CHAIRS:

- Radial pattern of square perforations decorate the surface of the seat
- Perforations help with airflow on hot days and rainwater management

## BIMINI CHAIRS:

- A seamless tubular frame gives this chair a rounded profile
- Perforations help with airflow on hot days and rainwater management

## ABACO EXTENSION TABLE:

- Extendable table from 82"-110" long
- Extensions system allows the structure to slide, always keeping the legs at the end of the table
- This avoids any inconvenience due to obstructing supports
- UV-treated, uniformly colored poly slatted tabletop
- Coated aluminum legs with adjustable height feet
- Matte finish
- Can be easily cleaned and wiped down
- Recyclable

## BAIN TABLE:

- UV-treated, uniformly colored poly slatted tabletop
- Coated aluminum legs with adjustable height feet
- Stackable
- Matte finish
- Can be easily cleaned and wiped down

## NEVIS TABLE:

- Coated aluminum table with adjustable height feet
- Solid core, high pressure laminate tabletop
- Can be easily cleaned and wiped down
